Portfolio

Salem, Tamil Nadu

EXECUTIVE SUMMARY

Information Technology student with hands-on experience in software development and full-stack web technologies. Skilled in Java, React, Node.js, MySQL, and MongoDB, with a strong interest in designing and developing scalable applications. Built multiple projects that strengthened problem-solving, database management, and development skills. Eager to contribute to innovative software solutions while continuing to grow as a developer.

EXPERIENCE

Web Development Intern

CODSOFT

Mar 2024 - Mar 2024 Remote

Remote internship focused on web development

- Built responsive web pages using HTML, CSS, and JavaScript, React
- Developed interactive UI components and improved usability

Full Stack Development Intern

WSPL

June 2025 - June 2026 Thiruchengode

Full-stack development internship in Thiruchengode

- Developed full-stack applications integrating frontend and backend
- Created REST APIs and managed database operations

EDUCATION

B.Tech Information Technology

CGPA: 8.6

Knowledge Institute Of Technology

Sep 2023 - May 2027 Salem

HSE(12th)

Percentage: 91%

ModelSchool, Veerapandi

June 2022 - May 2023 Salem

SSLC(10th)

LotusMatricHr. Sec. School

June 2020 - May 2021 Salem

SKILLS

Programming Languages: Java, Python

Web Technologies&Frameworks: HTML5, CSS3

JavaScript, ReactJs, NextJs

Backend Technologies: SpringBoot, Rest API, Fast API,NodeJs, AI/ML Integration

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Figma, IntelliJ IDEA, Vercel, Netlify

Soft Skills: Problem Solving, Teamwork, Communication, Leadership, Adaptability

KEY ACHIEVEMENTS

Achievements in Hackathons - Finalist of SIH 2025

Shortlisted among top 5% teams nationally at Smart India Hackathon 2025 and presented project at Odisha.

Technical Competitions & Academic Recognition

Secured prize-winning positions and participation recognition in national-level ideathons, poster presentations, design blitz competitions, and technical conferences across multiple institutions.

PROJECTS

AI Healthcare Assistant [GitHub](#)

AI-Powered Healthcare Prediction System

May 2026 - May 2026

- Developed an AI-driven healthcare assistant using Python, Machine Learning, FastAPI, and React for disease risk prediction.
- Implemented personalized health recommendation features based on user lifestyle and health data.

SkillSwap AI [GitHub](#) | [Demo](#)

Intelligent Peer Learning Platform

Mar 2026 - Apr2026

- Developed a full-stack student collaboration platform using React.js, Node.js, Express.js, and MongoDB with secure authentication and skill-based matching.
- Integrated AI chatbot assistance and real-time collaboration features to enhance student interaction and project teamwork.

Agri Diagnosis [GitHub](#)

AI-Based Crop Yield Prediction System

Oct 2025 - Dec 2025

- Developed a crop yield prediction system using React, Python, and Machine Learning to forecast agricultural output.
- Analyzed weather and soil data to generate yield predictions and provide farming recommendations.

Infinity Finds [GitHub](#) | [Demo](#)

E-Commerce Website

Sep 2025 - Oct 2025

- Built an e-commerce platform for handcrafted products using React and Firebase, featuring user authentication, product management, and real-time database integration.
- Created a responsive and intuitive user interface using HTML and CSS, works across desktop and mobile devices.
